### Social Media

Depending on your settings or the privacy policies for social media and messaging services like Facebook, WhatsApp or Twitter, you might give us permission to access information from those accounts or services. By joining an official School page or group in social media, you consent to allowing us to contact you through that platform.

Information available publicly

This may include information that has been published in articles/newspapers. This information is already in the public domain.

When we collect it as you use our websites

Like most websites, we use “cookies” to help us make our sites – and the way you use them – better. Cookies mean that a website will remember you. They are small text files that sites transfer to your computer (or phone or tablet). They make interacting with a website faster and easier – for example by automatically filling your name and address in text fields.

In addition, the type of device you are using to access our website and the settings on that device may provide us with information about your device, including what type of device it is, what specific device you have, what operating system you are using, what your device settings are, and why a crash has happened. Your device manufacturer or operating system provider will have more details about what information your device makes available to us.

### CCTV

Some parts of the Alpha Training maybe monitored by CCTV. We use any video and audio recorded to protect our learners, staff and visitors while they are on site, to deter crime, and to help maintain good order within the grounds. We retain this information for a period of up to three months. Access to CCTV footage is controlled. CCTV footage may be passed onto the Police or other relevant authorities.

Who helps us process your data

We will share personal information with the Local Authority when the learner has an EHC Plan in order for them to fulfil their duties.

We share attendance data with the Local Authority as required by law and in accordance with the Attendance Policy.

Occasionally, we will need to share personal information relating to our community with third parties, such as:

professional advisers (e.g. lawyers, insurers, PR advisers and accountants); government authorities (e.g. HMRC, DfE, police or the local authority); and appropriate regulatory bodies ( e.g. Ofsted).

For the most part, personal data collected by the School will remain within the School, and will be processed by appropriate individuals only in accordance with access protocols (i.e. on a ‘need to know’ basis). Particularly strict rules of access apply in the context of:

medical records held and accessed only by the School and appropriate medical staff under his/her supervision, or otherwise in accordance with express consent; and  
pastoral or safeguarding files.

However, a certain amount of any Special Educational Needs (SEN) pupil’s relevant information (including medical information) will need to be provided to staff more widely in the context of providing the necessary care and education that the learner requires.

Staff, learners and parents are reminded that the School is under duties imposed by law and statutory guidance (including Keeping Children Safe in Education) to record or report incidents and concerns that arise or are reported to it, in some cases regardless of whether they are proven, if they meet a certain threshold of seriousness in their nature or regularity. This is likely to include file notes on personnel or safeguarding files, and in some cases referrals to relevant authorities such

as the Local Authority Designated Officer) LADO or police. For further information about this, please view the School's Safeguarding and Child Protection Policies.

Finally, in accordance with Data Protection Law, some of the School's processing activity is carried out on its behalf by third parties, such as the VLE (virtual learning environment). This is always subject to contractual assurances that personal data will be kept securely and only processed in accordance with our specific directions.

### How we store your data

We store your data securely on our network.

Data collected using a third party application, such as VLE, will be stored on the third party's server and imported into the school. We only use third parties which comply with all relevant GDPR information.

Physical data is stored securely in an office at Alpha Training. Access to physical and digitally held data is restricted to appropriate school staff and volunteers.

### How long we keep personal data

We will retain personal data securely and only in line with how long it is necessary to keep for a legitimate and lawful reason. Typically, the legal recommendation for how long to keep ordinary staff and pupil personnel files is up to seven years after the learner (or former learner) has reached 18 years of age. However, incident reports and safeguarding files will need to be kept much longer, in accordance with specific legal requirements, as will the school's admission register which along with specific details of a learner's time at school will be stored indefinitely.

If you have any specific queries about how our retention policy is applied, or wish to request that personal data that you no longer believe to be relevant is considered for erasure, please contact Michelle Howdle. However, please bear in mind that we will often have lawful and necessary reasons to hold on to some personal data even following such request.

A limited and reasonable amount of information will be kept for archiving purposes, for example; and even where you have requested we no longer keep in touch with you, we will need to keep a record of that fact in order to fulfil your wishes (called a "suppression record").

Keeping in touch and supporting Alpha Training/Hawthorn Farm

The School will use the contact details of parents, former learners and other members of the School community to keep them updated about the activities of the School, or former learners and parent events of interest, including by sending updates and newsletters, by email and by post. Unless the relevant individual objects, the School will also:

You always have the right to withdraw consent, where given, However, we are nonetheless likely to retain some of your details (not least to ensure that no more communications are sent to that particular address, email or telephone number).

### Your Rights

#### Rights of access

Individuals have various rights under Data Protection Law to access and understand personal data about them held by the School, and in some cases ask for it to be erased or amended or have it transferred to others, or for the School to stop processing it – but subject to certain exemptions and limitations.

Alpha Training Hawthorn Farm & Alpha Hair Design  
Data Protection Regulation Privacy Notice

Any individual wishing to access or amend their personal data, or wishing it to be transferred to another person or organisation, or who has some other objection to how their personal data is used, should put their request in writing to Michelle Howdle.

We will endeavour to respond to any such written requests as soon as is reasonably practicable and in any event within statutory time limits (which is one month in the case of requests for access to information).

We will be better able to respond quickly to smaller, targeted requests for information. If the request for information is manifestly excessive or similar to previous requests, the School may ask you to reconsider, or require a proportionate fee (but only where Data Protection Law allows it). Requests that cannot be fulfilled

You should be aware that the right of access is limited to your own personal data, and certain data is exempt from the right of access. This will include information which identifies other individuals (and parents need to be aware this may include their own children, in certain limited situations – please see learner Requests below), or information which is subject to legal privilege (for example legal advice given to or sought by the School, or documents prepared in connection with a legal action).

We are not required to disclose any learner work, examination scripts (or other information consisting solely of learner test answers), provide examination or other test marks ahead of any ordinary publication, nor share any confidential reference given by the School itself for the purposes of the education, training or employment of any individual.

You may have heard of the "right to be forgotten". However, we will sometimes have compelling reasons to refuse specific requests to amend, delete or stop processing your (or your child's) personal data: for example, a legal requirement, or where it falls within a legitimate interest identified in this Privacy Notice. All such requests will be considered on their own merits.

#### Learner requests

Learners can make subject access requests for their own personal data, provided that, in the reasonable opinion of the School, they have sufficient maturity to understand the request they are making (see section Whose Rights? below). A learner of any age may ask a parent or other representative to make a subject access request on his/her behalf.

Indeed, while a person with parental responsibility will generally be entitled to make a subject access request on behalf of younger learners, the law still considers the information in question to be the child's: for older learners, the parent making the request may need to evidence their child's authority for the specific request.

Learners at School are generally assumed to have this level of maturity, although this will depend on both the child and the personal data requested, including any relevant circumstances at home. Younger children, may however be sufficiently mature to have a say in this decision, depending on the child and the circumstances.

#### Parental requests

It should be clearly understood that the rules on subject access are not the sole basis on which information requests are handled. Parents may not have a statutory right to information, but they and others will often have a legitimate interest or expectation in receiving certain information about learners without their consent. We may consider there are lawful grounds for sharing with or without reference to that learner.

Parents will in general receive educational and pastoral updates about their children. Where parents are separated, the School will in most cases aim to provide the same information to each person with parental responsibility, but may need to factor in all the circumstances including the express wishes of the child.

Alpha Training Hawthorn Farm & Alpha Hair Design  
Data Protection Regulation Privacy Notice

All information requests from, on behalf of, or concerning learners – whether made under subject access or simply as an incidental request – will therefore be considered on a case-by-case basis. As a parent you have rights to access your child's educational record - see Education (Pupil Information) (England) Regulations 2005

#### Consent

Where we are relying on consent as a means to process personal data, any person may withdraw this consent at any time (subject to similar age considerations as above). Examples where we do rely on consent are: certain types of uses of images, certain types of marketing and fundraising activity. Please be aware however that the School may not be relying on consent but have another lawful reason to process the personal data in question even without your consent.

That reason will usually have been asserted under this Privacy Notice, or may otherwise exist under some form of contract or agreement with the individual (e.g. an employment or parent contract, or because a purchase of goods, services or membership of an organisation such as an former pupils or parents' association has been requested).

#### Whose rights?

The rights under Data Protection Law belong to the individual to whom the data relates. However, the School will often rely on parental authority or notice for the necessary ways it processes personal data relating to pupils – for example, under the parent contract, or via a form. Parents and learners should be aware that this is not necessarily the same as the School relying on strict consent (see section on Consent above).

Where consent is required, it may in some cases be necessary or appropriate – given the nature of the processing in question, and the learners age and understanding – to seek the learners consent. Parents should be aware that in such situations they may not be consulted, depending on the interests of the child, the parents' rights at law or under their contract, and all the circumstances.

In general, the School will assume that learner consent is not required for ordinary disclosure of their personal data to their parents, e.g. for the purposes of keeping parents informed about the learners activities, progress and behaviour, and in the interests of the learner welfare. That is unless, in the School's opinion, there is a good reason to do otherwise.

However, where a learner seeks to raise concerns confidentially with a member of staff and expressly withholds their agreement to their personal data being disclosed to their parents, the

School may be under an obligation to maintain confidentiality unless, in the School's opinion, there is a good reason to do otherwise; for example where the School believes disclosure will be in the best interests of the learner or other learners, or if required by law.

Learners are required to respect the personal data and privacy of others, and to comply with the School's policies and the School rules. Staff are under professional duties to do the same covered under the relevant staff policy. Staff are also required to respect the personal data and privacy of others and comply with all School policies.

#### Data Accuracy and Security

We will endeavour to ensure that all personal data held in relation to an individual is as up to date and accurate as possible.

Where possible we use publicly available sources to keep your records up to date; for example information provided to us by other organisations (e.g. the Local Authority) as described above. We regularly contact parents so they they can update their information and have self-update systems in place for these users.

Data Protection Regulation Privacy Notice

The School will take appropriate technical and organisational steps to ensure the security of personal data about individuals, including policies around use of technology and devices, and access to school systems.
